100% DIGITAL PRINTING GETTING STARTED

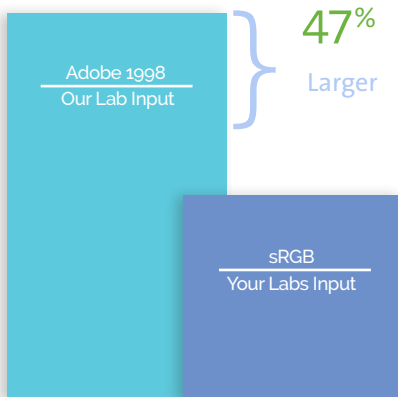

WHY DIGITAL PRINTING?:

- No chemicals, which can cause color variances from print to print.
- Digital technology allows us to print your image exactly the same today, in 6 months, or in 60 years.
- We accept ANY color space!
- Send us your image in its original color space whether it's an sRGB or Adobe 1998.

Get Started with a Leather Bound Paper Sample Album.

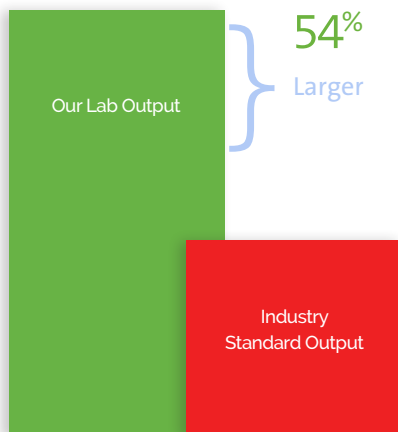

See Page 41

A larger input color gamut allows for more colors.

LARGEST INPUT

Capturing your image in a larger color space, like Adobe 1998 compared to sRGB, can have a positive impact on your image. Because there are more colors available to create your image, it will print more accurately to the way it looked when it was captured.

This larger print gamut enables Our Lab to produce the best image quality in the industry.

LARGEST OUTPUT

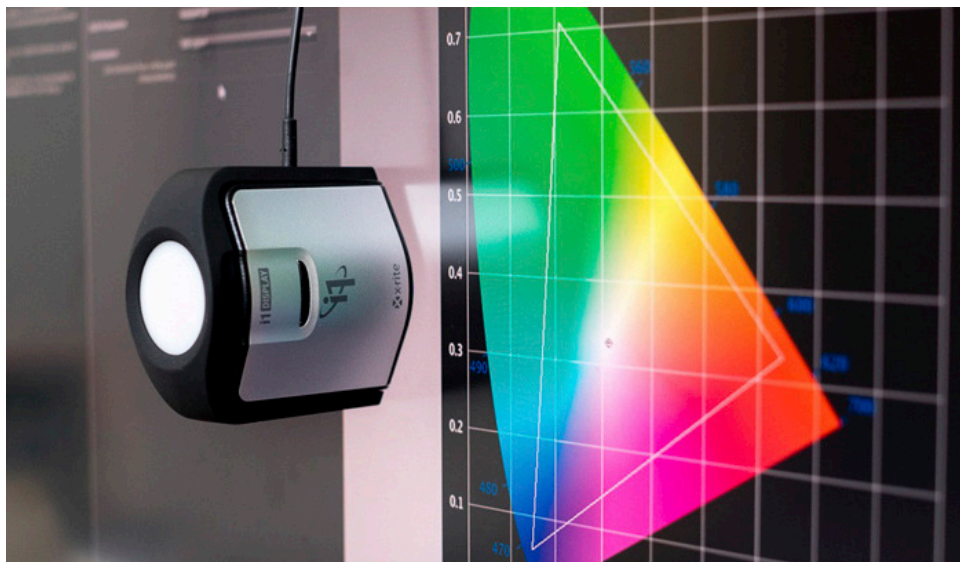

Our 100% digital process has a 54% larger output color gamut than every other process. Just as with input color spaces, a larger output color gamut significantly improves the way your image prints, and it will print just as it appeared when it was captured.

100% DIGITAL PRINTING GETTING STARTED

OPTIMIZE YOUR COLOR OUTPUT WITH A CALIBRATION DEVICE

The first and most important step is to verify that your monitor is calibrated with a professional calibration device. If your monitor is calibrated, you will not see much shift in color. Most of the color shift occurs when your monitor is not calibrated. If you are nervous about color, you are more than welcome to request a test print for a small fee.

We value the perfect color match, so we've put together our best recommendation for calibration. We strongly advise purchasing a hardware calibration device to make sure you are getting the best match from your monitor to the printed pieces.

OUR RECOMMENDATION

When it comes to calibration, we recommend the i1Display Pro and ColorMunki Display by Xrite. There's a really good reason for that. The i1Display Pro and ColorMunki Display by Xrite are highly accurate and incredibly easy to use.

SOFT PROOFING

Yes, we do have soft proofing profiles that you can use to adjust your files. This allows you to proof your files under our printing conditions. Our soft proofing profiles are both Mac and PC compatible.

See on website under "Resources > Soft Proofing"

BORDER OPTIONS

Natural-Wrap

Your image naturally wraps around the edges of the stretcher frame.

Color Border

We can match any color to use as a border that wraps around the edges of the stretcher frame.

Digital Stretch

If you don't have enough image to naturally wrap or you don't want a color border, we can perform a "digital bleed" that will give the illusion of a natural gallery-wrap.

Word Wrap

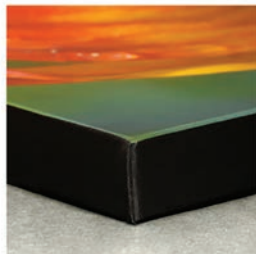

Print favorite sayings or words from your client's session on the sides of your canvas. We'll make sure that your word wraps are aligned perfectly on the stretcher frame.

CANVAS FLOATING FRAMES

CANVAS FLOATING FRAMES

Turn your clients' prints into art by framing them in a custom Floating Frame! All hand-made collections are offered in a variety of colors and are available for canvas prints and metal prints.

Our exquisite solid wood frames are hand-crafted by professionals and mimic traditional custom framing, but offer wider side panels. A half inch space is left between the canvas and the frame to achieve a three dimensional look without the extra cost of matting or glass.

The French Collection: Coordinate your canvas prints with your fine art prints by custom framing them with our French Collection. This collection gives your frames a more rustic, wooden look. With a multitude of diverse styles and colors, they are guaranteed to harmonize with any decor, look trendy and, shall we say, magnifique!

Regal Collection: If you're looking for a smoother, more finished look then this collection is for you! Available in two colors, brown and black, the Regal Collection is fit for royalty...and of course your clients!

Majestic Collection: This impressive collection is available in three colors, white, brown, and black and guaranteed to add style to your clients' canvas prints!

Traditions Collection: If you're looking for a more traditional look to your frame, this collection is the way to go! The thicker side panels, and dark colors, walnut, mahogany, and black, will compliment any room!

Prestige Collection: Give your frames a more modern look with our Prestige Collection! These classy, dual-colored option frames will add a chic look to your client's home!

CANVAS BLOCKS & WRAPS

CANVAS FLOAT WRAPS

CANVAS BLOCKS

Our latest addition to our canvas product line is the high-quality, super durable Canvas Block. Your image is printed directly on a UV-coated satin finish canvas and professionally wrapped around a solid block base. Price includes hanging hardware and black mat board backing. Please note that these canvases are not the traditional Gallery Wrapped and Hand-stretched Canvases.

PRINT WRAPS

Identical to our Canvas blocks but available in 100% digitally-printed fine art Luster paper. Print Wraps are coated with velvet UV laminate to protect your image and then wrapped around a solid block base. Price includes hanging hardware and black mat board backing.

Canvas Blocks and Print Wraps have a 1.5" depth and come in the following sizes:

Standard

8x10"	20x30"
11x14"	24x30"
16x20"	24x36"
20x24"	30x40"

NEW CANVAS FLOAT WRAPS

Our premium quality float wraps are mounted to a solid board and are only 1/4" inch thick. They come with either metal hardware in all four corners or with an individual wood cleat. Both give the illusion of your canvas floating a 1/2" inch away from your wall. Available in Traditional Luster Canvas or new Metallic Canvas. Sizes 4x6 - 30x40".

100% DIGITAL PRINTS METAL PRINTS

METAL PRINTS

Give your fine art prints an edgy, contemporary look and feel with Simply Metal prints. Vibrant color or black and white images printed over a white basecoat on a modern metal surface gives depth and richness to your photography. We have several standard sizes available. Any custom size available up to 30x40". Contact customer service to place your custom size order.

Simply Color Lab provides you with a quick and painless way to hang your Metal Prints. Solid Metal Wall Mount hanging hardware with a Satin Silver finish is available as a mounting option in the Metal Prints Catalog in ROES.

Square/Rectangle: Hardware is attached through four holes, each 5/16" of an inch in diameter, one hole in each of the four corners of the Metal Print. The hole will be 5/8" x 5/8" on center from each corner. Holes will be moved per special requests. Please contact Customer service for questions or special requests.

Circle: Hardware is attached through two holes, each 5/16" of an inch in diameter, one in the center top and one at the center bottom. The hole will be 1/2" on center for the top and bottom on all sizes of circle Metal Prints.

Wood Standoffs: Wood Standoffs allow you to easily mount your fine art prints to the wall. This durable hardware will keep your Metal Prints level and mounted. The 1/2" wooden standoff is placed in the back center, giving a floating illusion of the print off the wall. Step by step instructions included in each order.

All Metal Prints are also available with no holes and no mounting hardware.

Sizes: From 4x6" to 30x40"

Finishes: Gloss

Hanging Hardware: Standard, Standoff, or None

Production Time: 3 Business Days

Hanging System

Solid metal wall mount hanging hardware with a Satin Silver finish.

All Metal prints are also available with No Holes and No Mounting Hardware.

Wood Standoffs

Make a statement with our Wood Standoff. This durable Standoff will keep your Metal Prints level with less chance of shifting over time. The print will have an illusion of floating off the wall. Installs quickly and easily with our step by step instructions.
